## **CROWN JAKARTA'S FACILITY EXPANSION**

**Hong Kong, August, 27, 2012** - Crown Records Management Services has extended the capacity of its storage facility in Jakarta, Indonesia, to meet the increasing demand in the region. A gratitude ceremony was held at the new storage section to mark the completion of this expansion.

This extension of the building is 2,673 square meters, bringing the total area to 9,105 square meters. With this phase one extension, 119,000 additional cartons could be stored, increasing the current capacity to a total of 586,830 cartons. The project has three phases which, upon completion, will add a total of 384,615 additional cartons to the existing capacity or a combined total of 852,445 cartons in overall capacity. With growing client base and demand for state-of-the-art records management facility in the region, two-thirds of this new capacity is already booked by new businesses.

Among its international standard features are on-site security, 24-hour service assisted by state-of-the-art technology with biometric access control, closed-circuit television (CCTV), motion and heat detectors, and many more.

A traditional Indonesian gratitude ceremony was held on July 9<sup>th</sup>, where the Crown Jakarta team came together to rejoice the growth of Crown's records management business.

Rike Rivanny, record management sales manager - Crown Indonesia said "I am very excited to see that the extension of our facility has finally been completed, it shows that the records management industry in Indonesia will continue to grow. Together with our capable and determined team, we are excited and looking forward to fill the capacity of this phase one extension as well as the future maximum capacity of our facility."
